Education

App Academy

May 2016

*1000 hour-coding school
with <5% acceptance rate*

Coursework includes:
Rails, TDD, OOP, single-
page apps, coding style,
scalability, algorithms,
best practices

S.F. State University

B.A. Drama, May 2013
Summa Cum Laude

Experience

YouTube

Senior Software Engineer *July 2019–Present*

- Tech lead of the YouTube Kids smart TV app, setting its technical direction, collaborating with PM/UX, and mentoring more junior engineers
- Expanded reach by millions of DAUs, including launches on Apple TV, Fire TV, and Virgin Media
- Drove cross-YouTube projects such as supporting Lottie animations on living room devices
- Thrived and innovated while working with complex constraints such as limited user input mechanisms and low memory/compute devices
- Shepherded Google wide code health as author of best practices on screenshot testing and as one of ~40 engineers selected for the Dart readability team

Google

Software Engineer *Sept. 2016–July 2019*

- Led frontend development on multiple projects from initial design through to launch
- Designed key aspects of Connect Sales, Google's custom CRM, including integration with the support ticket system
- Co-owner of custom configuration language used to power all tables, forms, and charts in Google Ads and Connect Sales
